## TELEGRAPHIC.

WINNIPEG, January 2.

The C. P. R.'s annual statement shows its earnings to be over a million dollars more than the expenses. It also shows a surplus of over two millions above fixed charges, giving the shareholders a dividend of four per cent.

Murphy, liberal, has been elected in Quebec West for the local house.

The Winnipeg Sun has changed hands, and will from henceforth be conservative in politics.

A family of eleven persons were drowned at Huron, Michigan recently.

Capt. O'Shea has filed a petition for divorce, against his wife, on the grounds of improper intimacy with Parnell. The latter says it is a conspiracy with the object of prejudicing his case now pending against the London Times.

The Northern Pacific line has been completed into Brandon.

Twenty six boys perished in the burning of the London pauper asylum on New Year's Day.

McCormack, the Canadian skater was defeated by Paulsen in Minneapolis, on Wednesday.

Charles Bremner, Bresaylor, will bring action against General Middleton, Warden Bedson, and Hayter Reed, to recover value of furs lost during the rebellion. He takes this course because the government refused to settle his claim.

Ex-Empress of Brazil is dead, and Dom Pedro is dangerously ill.

Sir John Lester Kaye, and Major Bell announce that their operations next season will be on a much larger scale than last year.

Eight negroes were taken from the jail in Barwell, S. C., and shot by a mob. The balance of the colored population will emigrate.

WINNIPEG, January 3.

An Indian was frozen to death at Gleichen on Wednesday.

Russian influenza is epidemic in nearly every American city.

The Hon Blanchet at one time speaker of the commons is dead.

Gladstone was 80 years old yesterday and received congratulations from all parts of the world.

Recent reports received by the comptroller of the North-west Mounted Police as to the condition of affairs in the force and throughout the North-west, are of a most satisfactory nature. No destitution is reported among the half breeds, such as has prevailed in past years, only a few individual cases reported. The summer police patrols along the frontier are being reduced, but will not be called in altogether this year as heretofore, it being deemed desirable in the interests of the Northwest quarantine, and for the protection of Manitoba from Dakota timber thieves, to still maintain an efficient patrol. The season in Montana this year is reported to have been exceptionally dry—far worse, indeed, than has been the case in the Canadian Northwest—and information received by the agricultural department is to the effect that 75,000 head of Montana cattle are moving towards Canadian territory, and these it is especially desirable should not be permitted to come in contact with cattle now in the Northwest quarantine.

The Christmas Dominion Illustrated is a fine number. The Madonna de San Sisto (Raphael); "Gloria in Excelsis" (H. Le Rolle); Family Cares; St. Mark's, Niagara; several portraits of public men, and the Montreal Cadets make altogether a capital number. With the next issue the Dominion will close its third half year.

J. A. Carson came in from Whitefish Lake, in the beginning of the week. He reports hard times among the residents of the north.

## LOCAL.

R. Jarvis left on Saturday last for Calgary. Fether Grandin left for Lac la Biche on Friday.

This has been the coldest week of the season.

A saw mill for Leonard Gaetz of Red Deer arrived there recently.

H. Insull, commercial traveller, arrived from Calgary on Tuesday.

The annual school meeting is being held in the school house to-day.

Father Grandin came in from Lac la Biche by private conveyance and arrived here on Monday.

A clerk for the Hudson's Bay Company's service at Lesser Slave lake was a passenger on Monday's stage.

Father Leduc was a passenger in from Calgary on Monday's stage. There is good sleighing in from the Lone Pine.

The mounted police officials are making arrangements to issue rations to some destitute families of half breeds at Big Lake.

On Monday before M. McCauley and J. A. McDougall, J. P.'s, Samuel Johnson was charged with being a vagrant and was sentenced to six months in the barracks without labor.

At the meeting of the Curling Club last night a vote of thanks was tendered Mrs. Hardisty for her gift of four medals to go with the Hardisty Cup. A communication was read from Dr. H. C. Wilson presenting a medal to the Club to be competed for by the regular rinks of the Club, and the members of the winning rink to play off a points game for its possession. It was resolved that the series now running decide the possession of this medal, and a bonspiel be held in which the rinks will compete for the Hardisty Cup.

Our Saskatchewan correspondents reference to the Temperance Colonization Company's dispossessing certain settlers of their houses seem to have been misunderstood by some of our contemporaries. The Halifax Chronicle interprets it to mean that the company has asked the government to cancel the homestead entries of those people. This is a mistake as the company merely took possession of houses built upon their town plot and for which the owners had not made their payments as per agreement.

Mr. D. Wright, of Emerson, has been experimenting in bee culture. He says he had four hives last year which have increased to thirteen. He has already taken out 100 pounds of honey and expects to have 500 pounds making the profit on his bees about 200 per cent. He was a bee keeper in Ontario and find they do much better here than down there. The success attending his efforts taken in connection with that resulting from the experiments of Messrs. Knowles and Henderson of this place establishes beyond a doubt the possibility of making this industry a success in Manitoba and the Northwest.

The Christmas numbers of the Manitoba Free Press, and of the Winnipeg Sun, are splendid specimens of the push and enterprise of our two great western dailies. The Free Press is an enlarged 24 page number of the regular edition. It contains many illustrations and is full of very interesting reading matter to westerners. The Sun is about the size of the Dominion Illustrated and contains a number of interesting stories and several full page illustrations and portraits, among them being one of the governor general and the first published portrait of Attorney General Martin of Manitoba. The letterpress is fine and the quality of the paper first class.

Ed. Nagle and Mr. McGee who left here in October for the Pembina river country, to spend the winter in trapping and hunting, returned on New Year's Eve. The whole Pembina Territory explored by them has been burnt over and vegetation entirely destroyed by the fires of last season. They went one hundred miles down the river from the point at which they struck it, and also travelled three days journey back and found nothing but a blackened deserted country. The probabilities are that the whole timber section of the west lying along the base of the mountains is desert, as the result of the dry season and extensive fires. Fire many places had burned so deeply into the ground as to make travelling over it unsafe.

The following extract is from a letter written to the Manitoba Colonist by W. B. Macnamara, traveler for James O'Brien &

Co., who was here last summer: "After a journey of over two hundred miles by wagon from Calgary across the prairie, I arrived at Edmonton. I found it a large and thriving town and it shows increasing signs of prosperity. Edmonton is the business centre of an immense district, extending west to the Rockies and north to Peace river, and has a considerable population of both whites and breeds. The latter appear to be in comfortable circumstances. Many of them are freighters and make good wages transporting goods from the railroad to Edmonton, and thence to places in the far north. At present there is great activity among the miners on the Saskatchewan as the water is lower in the river than it has been for many years. The black sand on the bars on which the gold is found appears illimitable, and there is but little doubt that the precious metal is found sufficient to pay even with the pan or rocker. If some enterprising parties would import the rotary hand amalgamators, I have little doubt that the auriferous deposits would yield perhaps twenty dollars to the ton. The development of gold mining in this district is watched with interest, and it is expected that a big find will be made unexpectedly one of these days. Two of the mounted police stationed at Saskatchewan, pan out every evening, after they get through the duties of the day, about a \$1 worth each of the precious stuff a little below the police barracks.

The vocaleon for the Methodist church was brought in from Calgary on New Years Eve, by Frank Greenwood, and has been placed in the church. It is a handsome instrument, finished in oak, and weighed, packed, nearly one thousand pounds. This class of organ is the result of an invention by one W. Baillie Hamilton of England, who had his invention perfected and the mechanical arrangements completed by S. R. Warren & Sons, organ builders of Toronto. The design is to give as nearly as possible a representation of the human voice by means of qualifying tubes, through which the sounds from the reeds pass and becomes modified in tone. It is designed to take the place of the pipe organ in churches and halls where the larger instrument cannot be secured. The instrument purchased by the Edmonton congregation is the first one sold in Manitoba and the Territories outside of Winnipeg, where one has been secured for the Baptist church. The one secured by the Methodist congregation here is one of the smaller sizes, but the same in every respect to the larger ones, lacking only in style of case and volume of sound. It will be used in the church services from henceforth.

The Manitoba Free Press of December 19th, contains the following despatch from Montreal: Bishop Grandin in his letter to Cardinal Taschereau, dated St. Albert, N. W. T., says: It is known that the French in the Northwest are opposed to the changes proposed here. The contempt shown by the assembly for the French Catholic population has already had very bad results. Although the Metis gained nothing by the rebellion they are not for that reason insensible to this contempt. Nothing would be easier than to set fire to powder to day. Let one of the so called loyalists so disposed traduce our loyalty and patriotism. Suppose that a new revolt will be of profit to him, it will be easier for him to excite our population because our Catholics have no longer the confidence in the clergy that they once had. To protect the rights of the Metis and French Canadians, which cannot be taken from them without injustice, a French Canadian emigration to the Northwest must be organized, but nothing in this direction can be done without money. He therefore appeals for aid.
